

■ FRTWTR Whitepaper — Season 1 (v2)

■ Tokenomics — Season 1

Total Supply: 1,000,000,000 \$FRTWTR

Distribution

- **Public Liquidity & Community Treasury: 95% (950M)**

Distributed through pump.fun fair launch curve. Fuels *everything* — advertising, buybacks, airdrops, meme contests, merch drops, and community growth.

- **Founder Allocation: 3% (30M)**

Reserved for the originator of FartWATER. Vesting schedule will be published to show long-term alignment. Zero intention to dump — founder eats and drinks with the community (Bang Energy included).

- **Contributor Allocation: 2% (20M)**

Reserved for the one early collaborator who helped bring the project to life. Same alignment rules as founder: no quick flips, locked for long-term contribution.

Core Principles

- **Mostly Fair Launch:** 95% of tokens are immediately in the hands of the market + community.
- **Transparency First:** clear breakdown, no shadow allocations.
- **Buybacks & Redistribution:** ad revenue, merch sales, and collab income flow back into buybacks, LP support, and future airdrops.
- **Seasonal Growth:** Season 2 and beyond bring new utilities, fresh airdrops, and bigger stunts — backed by the same community-first token model.

■ Community — The Heart of FartWATER

FartWATER isn't just a token. It's a movement built on memes, chaos, and streaks. Our launch is fair, but our growth is community-first.

Where We Live

- Discord → core hub, XP system, meme contests, Raid Day planning
- X (Twitter) → daily shitposts, tour episodes, meme storms, referral skills
- Telegram → broadcast channel for updates + launch links

Quests & XP

Every wallet can connect to app.fartwater.fun to earn XP by:

- Daily check-ins (streaks)
- Meme submissions & contests
- Raid Day participation (mass reposts)
- Referrals (bring friends into the ecosystem)
- Episode Stamp claims (collectible POAPs per tour stop)

XP isn't just bragging rights → it directly boosts airdrop allocations and unlocks merch eligibility.

Streak System

The streak meter rewards consistency:

- Day 10 → Discord role: Brown Bottle OG
- Day 20 → Meme pack unlock
- Day 30 → ■ Diamond FartWATER Hat (merch drop + extra airdrop boost)

Referrals

Share your invite link. Each verified wallet you bring earns you XP.

- Top referrers each week get shoutouts + prizes
- Referral leaderboards reset each season
- Anti-sybil rules apply: referrals only count after quests/social tasks are complete

Merch Drops

Holders aren't just rewarded with tokens → they get real flexes:

- Hats, hoodies, iced-out chain pendants
- Drop eligibility tied to XP, streaks, and snapshots
- Limited edition → once they're gone, they're gone

Long-Term Vision

Season 1 = memes, streaks, merch, and chaos.

Season 2 = buybacks, bigger airdrops, AI meme bots, and cross-chain expansion.

The community isn't the audience → it *is* the show.

■ Fart to Hydration. Spam to Survive. Meme to Win.
