WORLD ANTI-DOPING AGENCY (WADA)

Compliance & Enforcement Division

Montreal, Quebec, Canada

CLASSIFICATION: RESTRICTED / SENSITIVE

CASE ID: FW-80085-MIA

From: Dr. Aris Velt a.velt@wada-ama.org

Sent: December 14, 2025 8:02 AM

To: Moses Gunner moses@fartwater.fun

Subject: URGENT: LABORATORY FINDINGS - SAMPLE #FW-80085

Importance: High

Mr. Gunner,

We have completed the gas chromatography analysis on the seized crate of "FartWATER: Purple SUR-UP Drank" intercepted at the Miami-Dade County Fair.

The results are alarming. We detected high concentrations of **Pseudo-Sizzurp™**. When we tested the "DatPiff Drip" variety, our centrifuge literally caught fire due to what your label identifies as "Unregulated Fire."

We are hereby classifying your entire product line as a **Category S0 (Non-Approved Substance)**. Please cease all "hydration airdrops" immediately.

Regards,

Dr. Aris Velt

WADA Senior Compliance Officer

Dr. Velt,

With all due respect, your centrifuge lacks the throughput to handle 2004-era liquidity.

1. **The Fire:** That is not a contaminant. That is **Mixtape Mango**. It is supposed to burn. That is the yield.
2. **The "Doping":** We are not doping athletes. We are **leveraging their bloodstream**. If a runner feels "slow-motion," that is simply their body executing an on-chain transaction with high latency.
3. **LimeWire Lemonade:** You claimed this contains "Trojan Horse-monal Therapy". That is a feature. It deletes weakness.

I have attached a **laminated** permit from the St. Louis County Fair (signed by a guy named Lonnie) ¹ that authorizes these ingredients.

Please update your ledger.

Mr. Gunner,

I don't know who "Lonnie" is, but this permit is written on the back of a Waffle House receipt².

Furthermore, one of your test subjects (a Mr. "Soulja Boy") was observed at the testing facility attempting to "mint" his urine sample as an NFT. During the screening, he tested positive for **Cryo-Steroids**. He claimed his veins were "icy." His body temperature was 32 degrees Fahrenheit. He should be dead.

We are sending a federal team to seize the "BLING BLING Frost" inventory. Do not move the van.

Subject: FWD: CODE RED - SHRED THE MANGO
Importance: 🚨 CRITICAL 🚨

DO NOT REPLY TO THIS EMAIL.

The Feds are tracking the van.

- **Diamond:** Stop selling the "Frost" flavor to toddlers.
- **Bow:** Eat the rest of the "DatPiff" stash. I don't care if it's spicy. We cannot have evidence.
- **Busta:** Plug the HSL-401 rig into the main server³. We need to create a "power event" to wipe the lab results.

If anyone asks, we are not a beverage company. We are a **decentralized humidity collective**.

Moses
